

# RESEARCH & INNOVATION FOR HEALTH SYSTEM DEVELOPMENT FRAMEWORK

Enabling countries to improve health, equity & development by strengthening their own research systems & capacities

## FRAMEWORK FOR BUILDING A NATIONAL RESEARCH & INNOVATION SYSTEM TO IMPROVE HEALTH, EQUITY & DEVELOPMENT

The starting point for strengthening a country's research for health system is a clear picture of the current state of research for health and the areas where development should be targeted.

Using this approach, countries can apply various tools and methods to implement a strategy of system strengthening.
